PROFESSIONAL SUMMARY

Computer Engineering student with hands-on experience developing responsive web applications using React.js and the MERN stack. Experienced in building REST APIs, implementing secure authentication, and integrating databases, with a core focus on algorithmic problem-solving and software development.

EDUCATION

Vishwakarma Government Engineering College, Ahmedabad 2024 – 2027
B.E. in Computer Engineering **CGPA: 8.20**

Government Polytechnic, Jamnagar 2021 – 2024
Diploma in Computer Engineering **CGPA: 9.65**

TECHNICAL SKILLS

Languages: Java, JavaScript, C, C++

Frontend: HTML, CSS, React.js, Tailwind CSS

Backend & Database: Node.js, Express.js, MongoDB

Core Concepts: Data Structures & Algorithms (DSA), OOP, REST APIs, JWT Authentication, CRUD

Tools: Git, GitHub, Postman

INTERNSHIPS

Stypix, Ahmedabad 2023
Web Development Intern – React

- Developed **Rentify**, a responsive car rental website using React.js and reusable UI components.
- Built responsive interfaces using HTML, CSS, and React.js to ensure cross-browser compatibility across screen sizes.
- Utilized React components, props, and state architecture to organize UI elements and manage dynamic content flow seamlessly.

NVInfoTech, Surat 2026
MERN Stack Intern

- Developed a full-stack **Quiz Website** with dedicated administrator and end-user functionality for complete quiz management.
- Built scalable REST APIs using Node.js and Express.js with MongoDB to efficiently manage quizzes, questions, and user results.
- Implemented secure JWT authentication, bcrypt password hashing, role-based access control, quiz attempts, and timer features.

PROJECTS

NoteApp GitHub
MongoDB, Express.js, React.js, Node.js

- Developed and deployed a note management application with user authentication and complete CRUD operations.
- Implemented JWT authentication, bcrypt password hashing, note search indexing, pinning, and theme customization.
- Engineered a trash system utilizing soft deletion mechanisms to isolate deleted notes from active database collections.

DIY Craft Shop GitHub
React.js, Tailwind CSS

- Built a responsive e-commerce platform for artisanal crafts featuring dynamic product browsing and real-time cart functionality.
- Implemented complete product management, reactive cart updates, and styled reusable React components.
- Leveraged React Context API and localStorage to manage cart state.

ACHIEVEMENTS & CERTIFICATIONS

- Solved **150 DSA problems** across LeetCode, GeeksforGeeks, and Codeforces.
- **Certifications:** React JS Development.
